

COLOR GUIDE

CLADDING SYSTEMS, GLAZING PANELS, AND ACCESSORIES

COLOR CHART

STOCK POLYESTER FINISHES

Durable yet budget-friendly. These finishes offer excellent durability while providing a more economical alternative. Available in a wide range of colors, the textured finishes help conceal any dings or dents and the smooth finishes provide an alternate option for glazing infill.

SERIES A: Standard Textured Polyester (.010")

HIGH GLOSS

COLOR CHART

STOCK PVDF FINISHES *(continued)*

30
YEAR
FINISH
WARRANTY

The beauty of color, the shine of metal. Mixing mica or metallic flakes within the paint coating allows the base color to offer additional pop, bringing depth to the building elevation. This look is further enhanced by the way in which these flakes reflect the light from different viewpoints.

Kynar 500 - Micas

STOCK ANODIZED FINISHES

20
YEAR
FINISH
WARRANTY

Anodized aluminum. These finishes are chemically and electrically produced (not just an anodic-look paint), and offer an excellent complement to storefront and glazing system extrusions.

Anodized

Anodized finishes are Exterior Standard No. 1

> Indicates a directional, lot-specific material. When specifying material for a project, panels with these finishes must be installed in all the same direction (180° not acceptable).
 Available in composite material and 4' wide sheets for flashing application (see Quick Reference Guide).
